A BOLD NEW WAY OF DOING BUSINESS

- WEB DESIGN
- MARKETING
- PRINTWORK
- PHOTOGRAPHY
- WEB HOSTING

Mission Statement

To provide quality service to our clients by building a lasting and dependable bond; one which creates a positive experience that our clients are happy to share.

About Us

Bold Media is your professional source for design and development. Combining years of experience with the latest styles, Bold Media creates eye catching pieces of art in any of our departments. Originally Bold Media was founded as Ikonik, Inc. in Dearborn, MI with a specific focus on web development. As our company grew, we quickly realized that by just designing web sites, we were short changing our clients. So Bold Media began to grow by slowly adding new services and features. We first added graphic design and printing, then hosting and marketing and finally photography.

At this point, we realized that the image that was built for Ikonik, Inc. could no longer apply to the new multimedia, multifaceted business model that is currently Bold Media. We decided that Ikonik, Inc. would be no and so Bold Media was born. Currently, all of our services feed into one another. We are able to create design campaigns by using services from all of our departments to create a flow from print to web.

We are constantly redefining and reevaluating our services here at Bold Media, so that we may provide our clients with the highest quality of service. Whether you are a corporation or a mother of four, we strive to maintain the same level of professionalism and quality in our work. We encourage you to contact us today and discover why people are trying the Bold way of doing things. The consultation is free, but our quality is priceless.

WEB DESIGN

With over 10 years of experience in Web Design, we develop & design sites of all sizes to fit your needs.

Web services include : web design, web site development, e-mail setup, calendar setup, web site traffic analysis
